

CUSTOM MADE  
EAR PLUGS

Ear, Nose & Throat Associates proudly offer custom swim plugs, custom musician's plugs, and custom hunting plugs

What the procedure entails:

1. A soft silicone material is inserted into your ears, and a custom earmold impression is made.
2. The impression of your ear(s) is then sent to the manufacturer to be made.
3. You choose the colors of the custom product you want.
4. You will then attend another visit to pick up your beautiful new custom plugs!

**Ice Colors**

**Metallic Colors**

**Sparkle Colors**

**Swirl Colors**
